Can't Let Go by Florian Tristan and the Garage Band

I pictured you and me,
Sailing to the sea,
Now you're just a picture on a wall.

With every day we realized,
Being happy is what we want,
We can only be happy when we're alone.

Refrain:
So please,
Don't tell me it was easy,
To forget me,
When you're all that I know.

So please,
Don't tell me it was easy,
To forget me,
When you're all that I know and I just can't let go.

They must be lying,
Yeah your friends they tell me,
With him you look more happy than with me.

So this is it,
My last song for you,
It won't bring back the time I had you too.

Refrain:
So please,
Don't tell me it was easy,
To forget me,
When you're all that I know.

So please,
Don't tell me it was easy,
To forget me,
When you're all that I know and I just can't let go.

So please,
Don't tell me it was easy,
To forget me,
When you're all that I know.

So please,
Don't tell me it was easy,
To forget me,
When you're all that I know and I just can't let go.
